Benefits of Google Workspace

Cost Saving

Do not need any extra software licenses to use **Google Workspace Productivity Tools**.
Just need a **web browser (Google Chrome)** to use all the tools of **Google Workspace**
Works on **any platform** such as mobile phones and tablets.

Why choose local reseller?

Professional & local support

Resellers often sell locally, providing a level of support that you cannot get directly from Google.

Reseller discount

We offer special discounts for our special customers.

Training

We can offer support plans or additional ad-hoc support time at an hourly rate to cover day to day support or on-going training to make sure employees are able to use Google Workspace effectively.

Custom applications and integrations

An email and productivity platform is unlikely to be the only software a company uses. A G Suite reseller can help you find other products on the marketplace that integrate with your existing systems for the purposes of accounting, time tracking, invoicing, project management, and more.
